SUMMARY

Computer Science undergraduate with hands-on experience building full-stack web applications using React, Next.js, and TypeScript. Comfortable across the stack from database design to UI implementation, with a growing foundation in data structures, algorithms, and system design. Seeking a Software Engineering internship/new-grad role.

EDUCATION

University of the Punjab — Lahore, Pakistan
Bachelor of Science in Computer Science (Ongoing) — Expected Graduation: October 2027

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks (IPv4/IPv6, MAC etc), Compiler Construction, Software Engineering (Agile, Scrum, Kanban and many other concepts & theoretical knowledge), Computer Organization & Assembly Language, Discrete Mathematics, Probability & Statistics, Calculus & Analytical Geometry, Multivariate Calculus, Web Technologies (HTTP/HTTPs, REST, SOAP, JSON)

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript (ES6+), TypeScript, SQL

Frameworks & Libraries: React, Next.js, Tailwind CSS, HTML5/CSS3

Databases & Backend: PostgreSQL (Supabase, Neon)

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming

Tools & Platforms: Git, GitHub, Vercel, Claude, Chatgpt, Cursor

Spoken Languages: English, Urdu, French (Beginner)

PROJECTS

Personal Portfolio | *Next.js 14, React, TypeScript, Tailwind CSS, Supabase* | *[https://memoonasaleem.vercel.app] / [github.com/Memoona-Tech/nextjs-portfolio]*

- Designed and built a responsive personal portfolio site with Next.js 14 (App Router) and TypeScript, using a reusable, component-based architecture styled with Tailwind CSS.
- Integrated Supabase for backend data handling and deployed on Vercel with CI/CD from GitHub, enabling automatic production updates on every push.

Duolingo Clone — AI-Enhanced Language Learning App | *Next.js, TypeScript, PostgreSQL (Neon), AI API* | *[https://xuolingo.vercel.app]*

- Rebuilt Duolingo's core learning experience from scratch, including lesson progression, exercises, and gamified streak/XP tracking, using Next.js and TypeScript.
- Built an AI-powered chatbot feature giving learners on-demand, personalized assistance during lessons, integrated via [AI API used, e.g., OpenAI].
- Designed the PostgreSQL schema on Neon with an emphasis on supporting concurrent multi-user access.

OnceView — Privacy-Focused Image Sharing | *Next.js, TypeScript, Supabase (Storage + Postgres)* | *(Under construction)* *[https://github.com/Memoona-tech/viewonce]*

- Built a privacy-focused image-sharing app issuing one-time, token-based share links (nanoid) that expire after first view or 10 minutes, backed by a Postgres tracking table and Supabase Storage.
- Served shared images through short-lived signed URLs and client-side capture deterrents (blocked context-menu/save shortcuts, auto-blur, session timeout) to discourage casual screenshotting.

LEADERSHIP & ACTIVITIES

- Community Leader (Province Level) — Led and supported all BS (CS/IT) students across Punjab Province under University of the Punjab, providing academic guidance and resource-sharing.

- Project Team Leader — Led a team through the full lifecycle of a semester project, coordinating tasks, timelines, and deliverables.
- Class Representative (CR) — Served as the elected liaison between the batch and faculty/administration.

HOBBIES & INTERESTS

- Content Creation & video editing (I'm a personal content creator on YouTube with 3+ years of experience having 7.7k+ Subscribers and over 3 Million+ overall channel Views)

- Badminton, Chess, Traveling, Sketching.
